2021-2022 VIRTUAL SCHOOL TOUR

Due to the continued presence of COVID, we have created a virtual school program for use in your classroom. All materials are supplied within a tote that you may keep and use throughout the school year.

This virtual program was developed for teachers to be able to use as time allows. Videos are under five minutes and all activity sheets are designed to correlate with the appropriate room in the Fithian house.

Included in this tote are the following:

- *Bulletin Board materials
- *Suspect cards for identification
- *Vintage items for hands-on
- *Fossil Box of local fossils and rubbing materials (One per School at the present time)
- *Teacher information folder, which includes the evaluation form and sample activity sheets
- *Clipped to the Teacher folder is a Jump Drive which includes printable activity sheets, video tours of the Fithian House, and a Power Point presentation of Vermilion County History. Additional videos of the Museum Center and Cemetery will be added at a later date. Check the Museum's website for Updates: www.vermilioncountymuseum.org

The Evaluation Form

This is our first year of trying to provide virtual learning to the schools. Please help us by sharing any ideas you have that will make this program better and more useable. Thank you.
